Billing of the Transmission services

Transmission Services are invoiced on the basis of a tariff scheme established by the French Energy Regulatory Commission.

The billing process works in accordance with the General Terms and Conditions of the Transmission Contract. The current version is available on our website.

➤ Your monthly invoice

Your invoice for a given month M :

- ✓ states Capacity Terms for month M and Quantity Terms for month M-1,
- ✓ is issued in month M+1, by post or electronically on the **e-transmission**, if you have signed up for this service.

With the invoice are associated appendixes :

- ✓ **detailed items** of your invoice,
- ✓ a statement of gas purchased by GRTgaz in case of long in gas position for the month M-1

You must send a postal invoice for the amounts sold by the shipper to GRTgaz (long position). The invoice will be settled by GRTgaz no later than the 10th calendar day following the arrival of the postal invoice or the next banking day, provided that the invoice precisely matches the purchase statement sent by GRTgaz.

The prices used for balancing are published on **SMART GRTgaz** website.

- ✓ an explanatory notice in case of a corrective statement, including the details of the modifications to your invoice.

➤ Your corrective invoice

If an invoice (already sent to the shipper) is modified, GRTgaz will issue a corrective invoice which only invoices the difference between the original quantities and/or capacities and the corrected ones.

The corrective invoice may relate to one or more billing months.

All your invoices are available on the **Portal T@** as pdf, csv and xml version. The appendixes are published as pdf version only.

➤ **Terms of payment**

The settlement date is the latest of the two following dates:

- ✓ the 10th calendar day following the issue date,
- ✓ the 20th calendar day of month M+1

If the deadline defined above is a non-working day, it is deferred to the next working-day.

In the event of late payment :

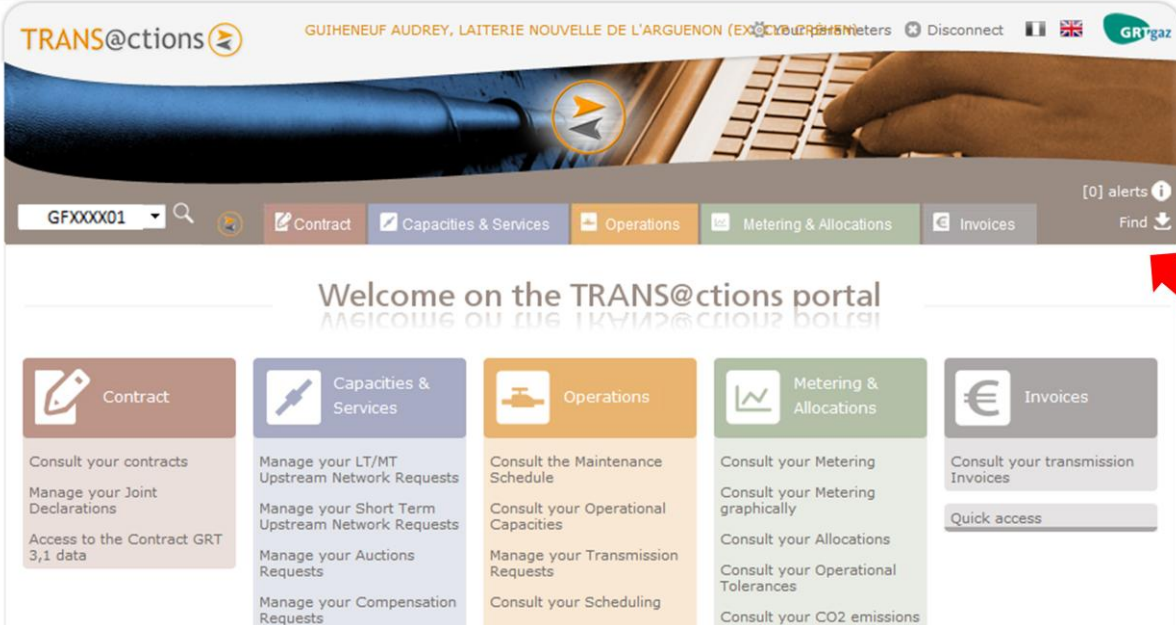

- ✓ GRTgaz charges you interest at the rate specified in the General Terms and Conditions of the transmission Contract,
- ✓ GRTgaz may activate the **guarantee** in accordance with the transmission contract.
