

REMINDER: Locational Products

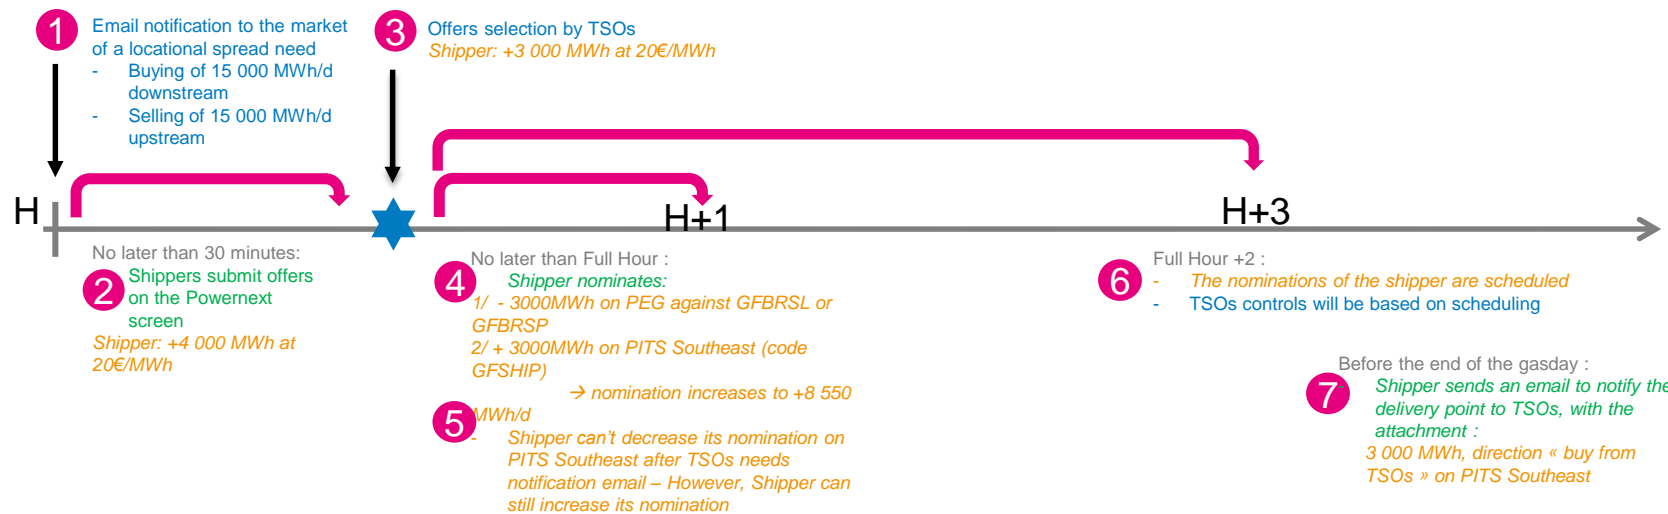

For GRTgaz' balancing or TRF congestions needs

- The same process applies to meet both types of needs

- Example of a consultation on NS1:

Selected shipper: SHIPPER (contract's code: GFSHIP) – Initial nomination at PITS Southeast = +5 550 MWh/d (among the points called by TSOs downstream of the NS1)

REMINDER: Locational Products

The Powernext Platform

- The same Platform to post bids for both types of needs:

ECC Counterparty Codes
Contractual delivery code

PEG EG001F

PEGAS Congestion Management Platform

ECC code: GFBRSL

GRTgaz PEG				
	Qty	Bid	Ask	Qty
WD	Balancing: Buying or Selling Congestion: Selling (Upstream)			
DA

SAT				
SUN				
BH				

ECC code: GFBRSP

GRTgaz PEG Downstream / GRTgaz PEG				
	Qty	Bid	Ask	Qty
WD				

GRTgaz PEG				
	Qty	Bid	Ask	Qty
WD			Congestion: Buying (Downstream)	

GRTgaz' use for balancing needs

GRTgaz and Teréga's use for congestion needs

TSOs will select the bids based only on the price criteria at the time of the selection:

- Outward products price for balancing needs
- Spreads price for congestion needs
