

Find out more about...

Secondary Capacity Market

As a shipper on GRTgaz’s network, you may exchange capacity via secondary market. As of April 2014, this secondary capacity market is available via the PRISMA platform.

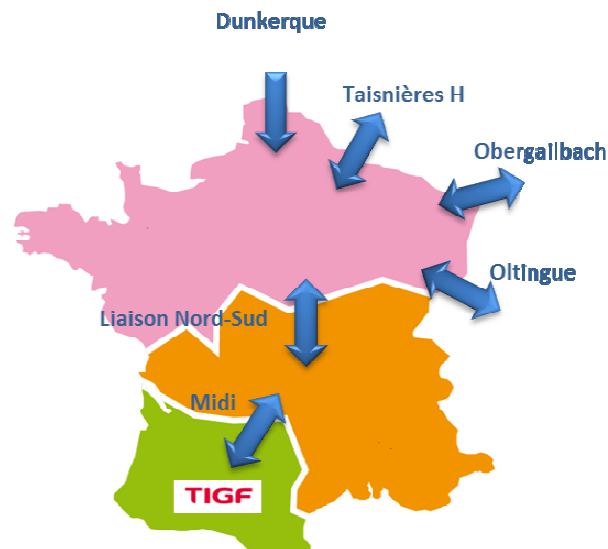

Secondary capacity market

A secondary market has been set up to allow shippers to trade or transfer their capacity right of use on GRTgaz’s network on an anonymous or over-the-counter basis. Full capacity transfer are also available via this platform.

These transactions take place independently at each network operator’s contractual points and for entry or exit capacity.

- **Available Points:**

The secondary market is available on all GRTgaz’s Network Interconnection Points (PIR) in both directions (except at Dunkerque) and on the following segments :

Secondary capacity Market

- **Summary of terms and conditions for secondary market capacity utilisation**

Transfer of use: A shipper may transfer a capacity right of use, on the points listed above. The shipper which first holds the capacity remains liable toward GRTgaz regarding this capacity, in particular the payment obligation. Transfer of use have to be registered at least 12h before the first gasday of the capacity (i.e. before 6:00pm day ahead).

Full transfer: allows a shipper to transfer all rights and obligations regarding all part or all of its subscribed capacity, on the points listed above. Full capacity transfer have to be registered until the 20th of the month preceding the month of the transferred capacity validity 1st day.

N.B.: Any capacity first sold as “bundled” via PRISMA primary shall only be transferred on the secondary market as a bundled product.

	Day	Month	Quarter	Season	Year
Transfer type	Transfer or use	Transfer of use Full transfer			
Capacity type	Ferm & Interruptible				
Notification	PRISMA Secondary (*)				

(*) Full transfer may also be held via notification to GRTgaz. Both shippers exchanging capacity shall send their notification before the 20th of the month preceding the month of the transferred capacity validity 1st day.

Practical aspects

- PRISMA Secondary access

PRISMA Secondary access is held via PRISMA platform. When you first connect, the shipper registration is done with the first user registration. A shipper registration without users is not possible.

Once registered, each user will obtain a login, a password as well as a Token.

In order to subscribe capacity on a bundle point where GRTgaz is a TSO, the shipper will need to be activated by GRTgaz. During registration process it is necessary to specify which Transportation Operators the shipper would like to work with.

For already registered shippers, it is possible to add Transportation Operators at any time via the « My PRISMA Primary » menu.

- PRISMA platform

The platform is available following the link : <http://www.prisma-capacity.eu>.

The dedicated secondary capacity market section is explained in the figure below:

The screenshot shows the PRISMA Secondary Trading interface. At the top, there is a navigation bar with tabs for AUCTIONS, BOOKINGS, SECONDARY TRADING (highlighted with an orange box), NETWORK INFORMATION, and CUSTOMER CENTRE. Below the navigation bar, there is a 'Secondary trading' section with sub-tabs for 'Trade Proposals' and 'Trades'. The 'Proposal overview' section is visible, featuring a table with columns for Proposal ID, Proposal Type, Status, Trading Procedure, Capacity amount, Network point, TSO, Runtime, Capacity category, Trading close, and Action. The table contains three rows of data.

Proposal ID	Proposal Type	Status	Trading Procedure	Capacity amount	Network point	TSO	Runtime	Capacity category	Trading close	Action
3833896	Proposal to buy (Assignment)	Open	First-Come-First-Served (FCFS)	1,000 kWh/h	l(M Oude statenzij) (GTG NORD-S) (301504)	GTS	2014-06-01 06:00 2014-07-01 06:00	firm	2014-04-11 00:00	
3769320	Proposal to sell (Assignment)	Open	Call for Orders (CFO)	2,000,000 kWh/h	Tarvisio (35719301)	SRG	2017-10-01 06:00 2018-10-01 06:00	firm	2017-09-28 06:00
